FROM

: Chief, Far East Division

SUBJECT

: Cancellation of Request for
North Korean Town Plans Made
in 1956

1. The purpose of this memorandum is to confirm the cancellation of the second request for North Korean town plans made by Far East Korea Branch in 1956.  of your division has already been informally notified of our decision that operational necessity does not justify the amount of work involved in the preparation of these plans, especially since they are or will be in part duplicated by studies prepared by other U.S. agencies.  told us that the last plan listed in our first request for town plans made in 1955 is near completion; the ones already received have been appreciated by our operating units.
